

One-Touch Compliance

Automated Compliance & Audit Platform

Client: An American multinational IT service management company.

Problem Statement:

The client had a tedious manual compliance management process with multiple manual touchpoints which gave way to several errors and inaccuracies. The client needed an intelligent tool and a competent Compliance Services Partner to replace the manual work with automatic compliance solutions to prevent any mistakes and ensure correct compliance at every point.

End-to-End Digitisation of the Entire Compliance and Auditing Process

Error-free and precise data is auto-generated in the tool for all the compliance aspects:

The revolutionary automated Compliance Audit Platform driven by AI & Machine Learning technology runs 100% record's check on all high-risk audit points such as: **Minimum Wages, PF & ESIC Contributions, NFH, Leave Encashment, Bonus etc.**

Solution:

With the automated SEAL Engine, there is a **Single Input Point**, and all further documents are auto-generated. Accurate data validation and compliance are managed on the tool with automated bots checking all data points, leaving no space for errors. PF-ESIC remittance is completed in one shot with a single input, within 5 days of data receipt for 25,000 employees. Challans are also issued well in advance, on the 5th of every month.
